

## **Installation Operative** **Job Advert - 2023**

At Triple E, our expert team have been designing, manufacturing and installing the most rugged, reliable and silent entertainment engineering solutions on the market since 1984. Triple E products are the industry standard across the globe, and we are extremely proud of our ability to provide a complete end-to-end service from consultation to installation. Join us as an Installation Operative, an entry level position, based in Biggin Hill, Kent. You will undertake all new installation work and modification work to existing track systems and system servicing with our Installations Manager.

We are looking for someone with positive attitude who is looking for a career and wants to work with their hands as well as their brain. Key to this role is understanding the importance of health and safety at work, a willingness to learn and working as part of a team. Theatre or entertainment background isn't essential as we will provide you with the necessary training.

At Triple E we are passionate about learning and development. Join us and we will provide you with opportunities to grow and progress within your role from Installation Operative through to Installation Engineer and beyond.

### Job responsibilities:

- Installation of track systems and modular structural systems
- Preparation of tools, equipment and vehicles for each job
- Travelling to site and businesses for installs and services
- Completing project documentation such as service reports
- Follow project specifications and drawings to ensure quality and accuracy
- Be available for out of hours working to support service and installation contract requirements (with prior arrangement)
- Be aware of safety at work and be alert in identifying potential hazards by removing or minimizing them wherever possible by following all Health and Safety Procedures
- Maintaining tools and equipment to ensure optimal operating conditions
- Providing written and verbal instructions to customers on how to operate all systems

### Requirements:

GCSE level or higher: Maths and English grade C or above

Enthusiasm

Desire to learn

### Preferred skills:

Full UK driving license

Experience using hand and power tools
