

Erail Offset Overlap Track Assembly

Technical Details

Part No: ERL0108

Weight: 3.325 kg

WLL: See Triple E WLL Sheet

Material: Aluminium Extrusion

Finish: Black Anodised

Erail is a walkalong or corded track for light to medium duty curtains. It can be motorised with an SDrive motor and is curved in-house.

This pre-assembled 3 m (10 feet) long offset centre overlap assembly can be used with both a straight, curved and 'U' shaped track system where overlapping sections are required. It also comes supplied with a pair of ERL2601 overlap clips to ensure correct alignment.

The continuous tee slot in the top of the track accepts our M8 Erail and 2Way nuts which can be inserted anywhere along the track for attaching suspension fittings.
