

Erail Head Pulley - Straight & Curved Systems

Technical Details

Part No: ERL0901

Weight: 0.876 kg

WLL: N/A

Material: Steel & Nylon PA6

Finish: Black Powder Coated (metal work)

The Erail head pulley is fitted to the end sections of Erail track systems and is used for both curved and straight corded systems. It directs the cord downwards to be connected to a TRA1101 Foot Stirrup or TRA1102 Adjustable Floor Pulley.
