

Erail Return Pulley - Straight & Curved Systems

Technical Details

Part No: ERL1001

Weight: 0.643 kg

WLL: N/A

Material: Steel & Nylon PA6

Finish: Black Powder Coated (metal work)

The Erail return pulley is fitted to the end sections of Erail track systems and is used for both curved and straight corded systems. It directs the cord back towards the ERL0901 Head Pulley or the SDrive Motor.
