

Erail & 2Way Hook Clamp

Technical Details

Part No: ERL1402

Weight: 0.248 kg
WLL: 40 kg

Material: Aluminium
Finish: Black Anodised

The ERL1402 Hook clamp is used for attaching Erail and 2Way track sections to a tube or truss with a maximum diameter of 50 mm. It can also be directly attached to the track or to an ERL1701/ERL1702 suspension bracket. It utilises a large M8 wingbolt for easy installation.
