

UniBeam Scenery Carrier with Brake

Technical Details

Part No: UBM2802

Weight: 4.122 kg

WLL: 385 kg

Material: Mild Steel & Polyurethane

Finish: Black Powder Coated (metal work)

A variant of the UBM2801 Scenery Carrier designed for use with UniBeam stage tracking only, the UBM2802 is equipped with a brake mechanism for fixing the position of the carriers on any non-corded system. The brake mechanism has been re-designed to be much more effective, solid enough to be used on cruise ships, and easier to operate as it only takes one turn to lock into place.

Operating Pole sold separately - Part No: T84250.
