

UniTrack / UniBeam

Master Runner - Straight Systems

Technical Details

Part No: TRA0701

Weight: 0.841 kg

WLL: 50 kg

Material: Mild Steel & Polyurethane

Finish: Black Powder Coated (metal work)

The TRA0701 Master Runner is used on UniTrack and UniBeam systems for the leading edge of curtains and it clamps the operating cord on manual and motorised systems. The Master Runner has a safe working load of 50 kg. Two metal loops are placed 55 mm apart for attaching the leading edge of curtains.
